Directions For Making “Celebration Cake”

1. Remove all contents from plastic container and wash container
2. Empty the cake mix (larger bag) into the large plastic container.
3. Add 1 small bowl of water (use bowl the frosting is in) to bowl containing cake mix.
4. Using the mini spoon mix well until lumps are gone.
5. Place bowl with cake mix in microwave. NOTE: Since microwave strengths vary, it is suggested that you microwave for 1 minute, then test with a toothpick to determine if it's done (if toothpick inserted in center comes out clean, cake is done). If cake is not done, microwave in 5 - 10 second intervals, checking cake for doneness in between. **DO NOT OVER MICROWAVE.**
6. While cake is baking, add frosting to small bowl. Add approximately 3 mini spoonfuls of water to frosting mix (or enough to reach desired consistency), stir.
7. Remove cake from microwave, cool, FROST, DECORATE, & CELEBRATE! It is normal for cake to shrink and look uneven BUT it will taste great!
